PROJECT PORTFOLIO

Updated 2026

12+ years building scalable, high-performance mobile applications. Android-focused (Kotlin, Jetpack Compose, Clean Architecture) with hands-on React Native and iOS (Swift), plus growing full-stack capability across NestJS, Spring Boot (Kotlin), Corda, AngularJS, and ReactJS. The projects below span fintech, healthcare, education, retail, and consumer domains — delivered from concept through store release.
